NITD/ACA/Best Project/2016-17

24.08.2016

NOTIFICATION

Best Undergraduate (B. Tech) Project Award, 2016-17

This will be awarded to the student who has made the most significant contribution to his/her project work among students of B. Tech Program

Best Postgraduate (M. Tech) Project Award, 2016-17

This will be awarded to the student who has made the most significant contribution to his/her project work among students of M. Tech Program

A committee constituted by the competent authority will make the selection of the best project awardee for above.

The following procedure will be followed:

1. Students who carry out projects individually are eligible for award.
2. The student should have completed the project in a single stretch spanning two semesters only.
3. Preliminary scrutiny of projects shall be made by the end of March 2017 by the respective departments and the

HODs will forward the names of two students for each branch to the Committee in the prescribed format.

4. The members of the committee shall evaluate the reports and record books (to be maintained by the students to record day-to-day activity) and choose the students for making oral presentation and display of any physical device before an open audience two weeks prior to the start of the Even Semester Examination, 2016-17

5. The selected candidates shall submit the final theses to the committee within one week after the end of Even Semester Examination, 2016-17. The committee will examine the record books and theses before arriving at a recommendation.

6. The committee shall consider the following aspects of the projects before making the final recommendations:

- a) Originality of concept, scientific approach, and experimental or analytical skills learnt
- b) Quality of physical device, experimental or analytical innovation, prospect of patent or publication, direct relevance to industry, health care or public utility
- c) Volume of work performed as presented through official record book and associated documents
- d) Quality of record of day-to-day work as given in Project Record Book and documents referred therein
- e) Organization and quality of presentation including audiovisual material
- f) Quality of thesis: content, organization and aesthetics.
