

Beyond the Walls - A lecture series by distinguished alumni members

**Expectation of Corporates & Industries from fresh Graduate Engineers
during Campus Interviews**

**Mr. Simanta Roy Choudhury
Former DGM of L&T and former Sr. GM of McNally Bharat**

One programme of the lecture series "Beyond the Walls" was held in NIT Durgapur on September 15, 2016. Mr. Simanta Roy Choudhury, a distinguished alumnus of the Institute, delivered a lecture on Soft Skill Development titled "Expectation of Corporates & Industries from fresh Graduate Engineers during Campus Interviews." It was jointly organized by the Department of Civil Engineering and the NIT Durgapur Alumni Association, and was held in the D. M. Sen Memorial Hall. It was attended by a large number of under-graduate and post-graduate students, mainly from the final and pre-final years. Mr. Roy Choudhury, speaking from his long experience in the industry in the field of conducting campus interviews, gave an extremely informative lecture. He pointed out all the major and minor mistakes that students usually make in the interviews. He also mentioned the important things that the interviewers look for in the students. The students enjoyed the lecture and felt this exposure helped them prepare for the campus placement interviews in a much better way.
