Dear Sir/Madam,

I kindly request you to please circulate this email.

I am Medha Rachana Datta, a student from the Electronics and Communication Engineering Department.

I would like to inform you that my laptop charger seems to have been accidentally exchanged with another charger in Room 402 of NAB, where the NPCI company's online assessment was conducted. The charger currently with me is working, but it does not belong to my laptop.

I request you to please check if anyone has received my charger by mistake so that we can exchange them and avoid any inconvenience.

Thank you for your support.

Best regards,
Medha Rachana Datta
