Dear Server Support Team,

Can you forward this message to all?

Thanks,

Dear All,

Today I have lost my spectacle (only one I have currently) around 3pm immediately after taking class at 404. Students could not find it in class. It might have fallen anywhere in NAB, possibly in the stairs or in the corridors. It is a blackish brown rectangular frame with white patches on both sides. A picture of it is attached below:

I having trouble without it. If you find it kindly let me know in 8777833741.

Thanks in advance,

Krishnendu Pal  
Assistant Professor  
Department of Chemistry
