

National Institute of Technology: Durgapur-713209

As desired by the MHRD, Govt. of India, the National Project Implementation Unit (NPIU), in collaboration with Stanford University, is implementing a large-scale program to assess and improve the skills of engineering students in India under TEQIP-III to enhance the quality and equity of engineering education across India. While a student's performance on the assessment is strictly confidential and will not be shared with anyone else, the Stanford team will provide students with individualized report cards. The report from Stanford University will include their score and ranking on the assessment (ranking compared to other students in India and also compared to students in other participating countries).

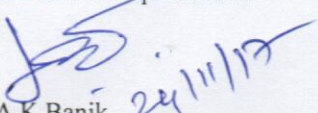

It is notified that the assessment/survey students of **1st semester Electrical Engineering and Computer Science and IT** students of the Institute and faculty survey will be as per the following schedule.

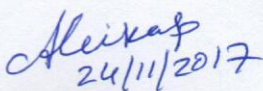

Date 27th November 2017

	9.15 AM to 12.30 PM	1.30 PM to 5.30 PM
