REMINDER NOTIFICATION

Best Undergraduate (B. Tech) project Award, 2018-19

This will be awarded to the student who has made the most significant contribution to his/her project work among students of B. Tech Program.

Best Postgraduate (M. Tech) Project Award, 2018-19

This will be awarded to the student who has made the most significant contribution to his/her project work among students of M. Tech Program.

A committee constituted by the competent authority will make the selection of the best project awardee for above.

The following procedure will be followed:

1. Students who carry out projects individually are eligible for award and should have completed the project in a **single stretch spanning two Semesters only. (Odd and Even semester, 2018-19)**
2. Preliminary scrutiny of projects shall be made by the **respective departments** and the Head of the respective departments will forward the name of **maximum two students for each Branch of B. Tech and one student for each discipline in M. Tech** to the Dean (Academic) **with the draft thesis (synopsis/ abstract) and the record book (containing the day to day progress) by April 16, 2019 (date extended)**. The forwarding letter should contain **i) the name of the programme/ branch, ii) the thesis title, iii) name of the supervisor and iv) signature of the student, supervisor and countersigned by the HOD certifying that the project done by single student.**
3. The members of the committee shall evaluate the reports and record books (to be maintained by the students to the record day to day activity) and shortlist the students for making oral presentation and display of any physical device. The name of the shortlisted candidates will be announced tentatively **on 31st April.**
4. The shortlisted candidates shall making oral presentation and display of any physical device with soft bound final theses before an open audience tentatively on **8th- 9th May, 2018-19**. The copy of the thesis will be retained by the evaluation committee.
5. The committee shall consider the following aspects of the projects for judgement:
 - a) Originality of concept, scientific approach, and experimental or analytical skills learnt;
 - b) Quality of physical device, experimental or analytical innovation, prospect of patent or publication, direct relevance to industry, health care or public utility;
 - c) Volume of work performed as presented through official record book and associated documents;
 - d) Quality of record of day to day work as given in project Record Book and documents referred therein;
 - e) Organization and quality of presentation including audiovisual material including question answer;
 - f) Quality of thesis: content, organization and aesthetics.
6. **The decision of the committee shall be final and binding.**
