Office of Dean (Students' Welfare)

No. NITD/ DSW/ welcome.note/ 2019 (noti-05)

Date: 08.07.2019

From Dean's (SW) desk:

A warm welcome to all the students in the Academic Session 2019-2020

Academic year 2019-2020 is very significant to all of us who are connected to NIT Durgapur in some way or other, as after a long and eventful journey the Institute is reaching a special landmark – ***entering into the 60th year of its glorious existence.***

At this auspicious juncture, it would be prudent to draw your kind attention to the following points of utter importance:

- **Ragging:** Though it is heartening to us that the number of ragging-related incidents has been drastically reduced. We want to eradicate this menace completely.
- **Violation of Hostel/Institute Rules:** Again, the number of incidents of gross indiscipline has been reduced to a significant extent but a few sporadic incidents occurred during the year for which some students had to be expelled (for definite period) from the Institute.

The Institute never wants to impose any penalty on any student and the Disciplinary Committees would like to spend their happiest time without any case at their disposal unless you compel them. We earnestly urge that every student would take an oath to oneself that she/he will neither involve not indulge in any act of indiscipline in future.

Now, let us shift focus to the most important global issue i.e. **The Endangered Earth**. Being an intellectual part of the society you must have been stricken by the numerous authentic reports and awful photographs published in the media regarding the global pollution and its deadly consequences. As a responsive community the students may take suitable action-plan in the form of (drawing your attention only to a few pertinent steps):

- Turning the campus to a plastic-free zone
- Use of separate bins for bio-degradable and non-biodegradable (plastic) refusals
- Minimisation of water-wastage and recycling of water
- Planned tree plantation
- Participating in sustainable, green, energy-recycling projects
- Awareness campaign among local people on the necessity of fight against pollution

We firmly believe that under the able leadership of Students Gymkhana and with active help from PRAKRITI club and NSS unit of our Institute, the entire Student Community will join in **Save Our Planet** campaign and make their presence felt through the performance.

Let us start marching towards a very fruitful and prosperous Diamond Jubilee Celebration.
