TEQIP-III Sponsored SHORT TERM COURSE

on

Open Source Software in Academia and Research

(OSSAR 2018)

August 06 to 10, 2018

Organized By :

NATIONAL INSTITUTE OF TECHNOLOGY DURGAPUR

Mahatma Gandhi Avenue, Durgapur - 713209, W.B., India
Website : www.nitdgp.ac.in

COURSE COORDINATORS :

Dr. Pronab Roy

Department of Civil Engineering, NIT Durgapur

Dr. Jaydeep Howlader

Department of Computer Science & Engineering
NIT Durgapur

Dr. Pinaki Pal

Department of Mathematics, NIT Durgapur

Mr. Amit Kr. Pramanik

Department of Computer Science and Engineering
Dumka Engineering College

ABOUT THE INSTITUTE

National Institute of Technology Durgapur (NITD) is a leading technical institute offering undergraduate, postgraduate and doctoral programmes in various disciplines of engineering, technology, science, social science and management. The education system is holistic with equal importance being attached to allround development of the students. NITD was established as a Regional Engineering College (REC) in 1960 as a joint venture of the Government of India and Government of West Bengal. REC Durgapur was converted to NIT Durgapur under the full administrative and financial control of the Ministry of Human Resource Development of Government of India with a Deemed University status on 3rd July, 2003. Subsequently NITD has been given the status of a University by the UGC Act. The Institute was declared an Institute of National Importance by the Government of India on August 15, 2007. The city of Durgapur is recognized as one of the fastest developing Tier II cities in the national scenarios. Durgapur is situated at a distance of about 180 km from Kolkata. It is located right on the major railway and expressway (NH-2) connecting Kolkata to Delhi and Durgapur can be reached from Kolkata (and vice versa) in 2 hrs. 30 mins.

ABOUT THE SHORT TERM COURSE

The movement of Open Source (OS) was started during January 1998, when Netscape announced to make the source code for their web browser, Navigator, freely available. Free & Open Source Software (FOSS) refer to; release the softwares with source code under the open-source license, so that anybody is allowed to modify, share it with others, use it to develop new systems/software/platform or market it under certain conditions. The greatness of FOSS is the 'freeness'. The 'freeness' doesn't mean free of cost, but the freedom to use, understand, reproduce and develop. However there are several software and computational utilities which are indeed free (like Scilab, LaTeX, Gnuplot, Libre Office, etc). The FOSS are as efficient and reliable as any other commercial softwares. Affordability, availability of source code and the freedom of choice have made open source a preferred platform for many organizations and also individuals. Over the past decade FOSS have become popular within the technology users in India.

This short term course will focus to introduce few FOSS and their various applications in research and academic purposes. It will provide the opportunity to address and express the advantages, usefulnesses and benefits of the FOSS to the community. The objectives of the short term course are: awareness on FOSS, introducing some of the FOSS and various applications of FOSS for scientific computation, documentation and technical paper writing.

TOPICS TO BE COVERED

1. Introduction to Free & Open Source Software, Open Source distribution
2. Computational software: Scilab, Python
3. Scientific Document Processing tools: LaTeX, Gnuplot, Xfig, Beamer package etc.
4. Office Document Processing tools : Liber Office, Gnumeric, Calc
5. Paper writing with IEEE / ASME / Springer / ACM cls.

RESOURCE PERSONS

The resource persons constitute faculty members from NIT Durgapur, ISI Kolkata, NITRR, Kolkata, RedHat, Bangalore and various guest speakers from other reputed institutions.

WHO CAN ATTEND OSSAR-2018

OSSAR-2018 is aimed to attract and bring together faculty members, Teaching Assistants and research scholars, students from academics and institutions recognized by AICTE, UGC or equivalent and persons from industries and research organisations. The participants will be benefited immensely and will fill free to use open-sources through close interactions/discussions with the resource persons/experts of the respective field during the lecture sessions as well as in laboratory sessions.
