ANNUAL REPORT 2011–2012

1.0 INTRODUCTION

1.1 Mission Statement

The mission of the Institute is to spread education amongst the students coming from all over India and overseas with diverse social and cultural backgrounds to make them enlightened, enriched, and efficient, so that they can cater to the need of the country, society, and the human race.

1.2 Objectives

- To modernise the existing laboratories by procuring state-of-the-art equipment
- To set up new laboratories in the emerging areas
- To develop competency of the faculty, officers and staff through training programmes
- To improve teaching-learning process
- To foster research and consultancy
- To collaborate with other institutions and industries
- To revamp the existing curriculum and syllabus of undergraduate and postgraduate programmes with emphasis on market-driven and need-based courses.

1.3 Education System

National Institute of Technology (NIT) Durgapur is a leading Institute in technical education. It offers UG and PG programmes in various disciplines of engineering, technology, science and management. Doctoral programme is also offered in engineering, science, and humanities.

NIT Durgapur is a part of the erstwhile REC system where education and national integration were considered inseparable, with half the seats allocated to the students from the state while the rest were reserved for the students from other states. Seats are also reserved for students from backward communities as per the guidelines of the Government of India. The education system is holistic with equal importance being attached to academic as well as overall development of the students.

The Institute was granted academic autonomy in July 2003 and it awards its own degree. The Senate is the highest policy-making academic body of the Institute.

1.4 New Initiatives

NIT Durgapur successfully participated in the World Bank-funded Technical Education Quality Improvement Programme (TEQIP) as a lead institute and improved its academic infrastructure and quality of human resources. The Institute has started its activities in TEQIP-II as well. Over the last few years NIT Durgapur gradually evolved from a teaching-centric institution to an institution focusing on both teaching and research. The faculty members were encouraged to instigate their research activities. This resulted in a rapid increase in research output, like publication in peer-reviewed journals and in being selected for sponsored projects. The Institute also initiated collaborative research programmes with esteemed research and academic institutions like CERN, Geneva, Caledonian College of Engineering, Oman, National University of Singapore, and many other academic institutions all over the world and industries like Durgapur Steel Plant. Internship was arranged for the undergraduate students in CERN, Geneva, Germany (DAAD programme) and NUS Singapore. New M. Tech. programmes in Biotechnology, Environmental Science and Technology and Software Engineering and M.Sc. programmes in Physics, Chemistry and Mathematics with Computer Applications were also introduced. A number of seminars, conferences, workshops and short-term courses were organized and the faculty members were encouraged to visit premier institutions in India and abroad for participation in conferences, short-term courses and training programmes. The Institute has also completely implemented the reservation for OBC students (27%) in UG and PG programmes.

2.0 AN OVERVIEW

2.1 Historical Background

National Institute of Technology, Durgapur was established as one of the 17 Regional Engineering Colleges in 1960 as a joint venture of the Government of India and the Government of West Bengal and was registered under the Register of Societies Act. With introduction of cutting-edge technology in the emerging areas, the Institute maintained its momentum with definite mission and vision which enabled it to get the prestigious status of National Institute of Technology under full administrative and financial control of the Government of India with a “Deemed to be University” status with effect from July 03, 2003. The Institute has now been declared as an “Institute of National Importance” by the Govt. of India, vide NIT Act 2007 (29 of 2007) implemented on August 15, 2007.

It started with only four branches of engineering: Civil, Mechanical, Metallurgy, and Electrical Engineering for undergraduate studies in 1960. Chemical Engineering was started in 1964. At present, the Institute offers nine B. Tech. programmes and sixteen M. Tech. programmes, many of which are industry-oriented. Besides, a three-year MCA programme and two-year MBA programme are also offered. The Institute has also introduced M. Sc. programmes in Physics, Chemistry and Mathematics with Computer Applications.

2.2 Location

NIT Durgapur is located in the heartland of industrial activities and the mineral-rich region of West Bengal, also known as ‘The Ruhr of India’. The city of Durgapur is well connected by rail with Kolkata, 158 km away, and is an important railway station on the main New Delhi-Kolkata route. It is a two and a half hours’ drive from Kolkata airport along Durgapur Expressway and NH 2, and there is a military airport at Panagarh, only 20 km from Durgapur. The place is only an hour’s drive from Tagore’s Santiniketan and has quite a few tourist spots nearby. The climate is moderate.

2.3 Campus

The Institute campus, spreading over 187 acres, is known for its serene environment. Buildings housing the departments and laboratories, residential blocks for faculty and staff, students’ hostels are far outnumbered by the trees in the campus which is self-reliant with facilities like roads, water supply, power distribution network, a market complex, banks and post office.

2.4 Administration

NIT Durgapur is an autonomous institution under the Government of India since July 2003. As per MOA, the Institute is headed by a Director and administered by a Board of Governors. It also has Finance Committee and Building and Works Committee. In the Board, there are representatives from the Government of India, the Government of West Bengal, industries, other institutions, and the faculty.

Three hundred and ninety four students came from the state of West Bengal while 394 students came from other 27 states of India. In addition, 31 students were admitted from foreign countries like Nepal, Bhutan, Bangladesh, Afghanistan, Mauritius, Zimbabwe, Vietnam, Mongolia, Kenya, etc.

The students find the environment of the Institute conducive not only to exercise their intellectual capability but also to learn living in cultural diversity and religious heterogeneity. In this era of free market economy India is a part of global village unconfined to its territory that we see in text books of Geography. Our students researching in higher academic institutes, and working in multinational companies have already made their marks in that global village.

With a total intake capacity of 1403 (800 Under-Graduate Indian Students and 603 Post-Graduate Indian Students) in the year 2011 in various branches of Engineering at undergraduate and postgraduate levels the institute has excelled not only in academics but also in every field one can think of. Foreign Students are admitted supernumerary as decided by the Ministry of External Affairs and the Ministry of Human Resource Development. The students have received several prizes and awards in various other institutes like Indian School of Mines Dhanbad, IIT Roorkee, IIT Delhi and many such technical organizations and forums as Engineering Fairs organised by the Birla Industrial & Technological Museum, National Council of Science Museums, Government of India and many more. The NIT Durgapur is proud of producing the brains more than 90% of which gets employed by campus interview itself. Some of the alumni are in the higher ranks in the organisational hierarchy of the corporate sectors in Europe and the USA.

Extracurricular Activities:

i. Centre for Cognitive Activities

Centre for Cognitive Activities Is the official science club of NATIONAL INSTITUTE OF TECHNOLOGY-DURGAPUR in its incumbency of 38 years, the club has produce opportunities and generated scope for the ignited minds to not only nourish and nurture their scientific knowledge and technical acumen but also the business aptitude from time to time the club has polished its facilities to keep in pace and in some way even move ahead of the existing colonies of science. Acting as an arena for the fiends of science, the crazy going spirit of the club and its members is responsible for making this club the 2nd largest in eastern India. The club consists of 5 sections namely CORE, ROBOCELL, DESIGNING, WEBDEVELOPEMENT AND E-CELL which together formulate all the inventories of the year. Every year the club organizes loads of periodic workshops and lectures by proficient professionals and eminent personalities. These may include robogyan, a robotics workshop and B-plan workshops by E-cell. ADOBE INDIA organizes workshops on web development, ethical hacking and Photoshop. These workshops are very interactive and a hand on experience for the students. The club is also responsible for organizing science exhibition and seminar by IEEE. Other events includes a robotics fest called ROBOCITY. Workshops and lectures on programing, coding, gaming etc. The main and the most awaited highlight of the year is the techno-management fest of the college organized completely by the CCA. The 3-4 days of extravaganza speaks out the dauntless spirit of the youths. Plethora of events and competitions on robotics, programming, gaming-plan, marketing strategy etc. are topped with handsome prize money. These events are surrounded by guest lectures and summits. Past eminents including Harry Croto (Nobel laureate), Prof Anil K Gupta and Prof Sunil Handa (IIM-A), irfanalam etc. the celebrations end with Arohannites stuffed with dj dance performances laser shows etc.

ii. SAE- Society for Automotive Engineering (NIT Durgapur Chapter)

Archimedes once famously remarked "Every new idea is impossibility until it is born". These ideas form the pillars of brilliance and since its inception in 2007, the SAE India Collegiate Chapter has done just that and more, to anchor itself as an indispensable forum in the hearts and minds of all avid auto enthusiasts.

Shifting gears from a regular academic life, the chapter has empowered students to drive into faster lanes with the confluence of innovation, knowledge, application and skill under the same hood. Under the guidance of an unparalleled mentor group, the club has continued the legacy of its explosive ignition four years ago, successfully drawing curtains on its unique auto fest "Motor Zundung 4". Held between the 3rd and 5th of February, 2012, Motor Zundung stood for the endeavor to appreciate raw

talent and give budding technocrats a feel of real-time automotive acumen with a plethora of online gaming events on FIFA 11 and NFS Most Wanted, robotic events like Go-Drafting, Relay Race, Robowars and DahiHundi, non-robotic events including Auto Quiz, Schaffer, Jig for a Jigsaw and even a mini auto-expo, courtesy the flagship event- Transmission. With interactive workshops and guest lectures, Motor Zundung 2012 blazed through all tracks of unmatched *esprit de corps* to help this chapter transcend the realms of mechanical engineering alone.

With sponsorships from Tata Motors, Toyota and Fiat to boast of, plans of participating in the Baja SAE India-one of India's biggest automobile project platforms and unveiling of the first-of-its-kind wall magazine "Autopia", the SAE India Collegiate Chapter of NIT Durgapur is all set to surge ahead in the years to come.

iii. IEEE Students' Chapter

It was formed on 25th February 2009. This 'exemplar par excellence' was made possible with active cooperation from students and the effective guidance of the faculty members. IEEE-The Institute of Electrical and Electronics Engineering is the world's largest technical organization whose foundation stone was laid by stalwarts like Thomas Alva Edison. We have started this branch with a gigantic strength of 123 members and are still counting. We are supposedly one of the largest student branches in Eastern India at the beginning. In coincidence with the goal of IEEE this student branch constantly strives for fostering technical excellence and innovation in the service of humanity. This student branch aspires to emanate an aura of technology and innovation which would enrich the environment with the vibe of rational and scientific thinking. IEEE and its members inspire a global community through IEEE's highly cited publications, conferences, technology standards, and professional and educational activities. We added another feather in the cap of NIT Durgapur this year by organizing a second edition of mega conference of international level INTERNATIONAL CONFERENCE ON EMERGING TRENDS (ICET-2012).

iv. GNU/Linux Users' Group

Established in the year 2003 with only a handful of enthusiasts, GNU/Linux Users' Group, NIT Durgapur, spearheads the FOSS curriculum in the college premises. It is now a full-fledged association of more than 200 members, encompassing not only students of NIT Durgapur but also students from near-by institutes and free software hackers/activists from various places in India.

The group works towards promoting the usage of Linux through various informative workshops, basic Linux classes and conducting courses all round the year. All this brought to the club, an enormous response as we witnessed the largest number of registrations since the club's inception. Successful installation of the Linux operating system has been done in the CSE/IT departments and amongst the students by the LUG core committee members.

Mukti, the annual FOSS festival of NIT Durgapur, primarily aims at promoting the concept of free software through various contests, games, workshops, talks and a kaleidoscope of onsite and off-site events, Codecracker being a huge success.

This year we also played host to some stalwarts of the open source world like Smit Shah who conducted a workshop on KDE Development, and Ravi Vyas who conducted three sessions of the Android workshop in a single day.

v. Maths 'N' Tech club

Mathematics is, undoubtedly, the most ancient yet most intriguing of all sciences ever developed by humans. Even in today's brutally competitive world, where economies fall like a stack of dominoes, mathematics retains its significance as a pre-requisite to being successful, be it in corporate world or financially ascetic but astute technocratic circles.

Creativity when spiced with technology inter-relates knowledge with society and the environment, the basic thing that one needs for survival in this world. It's not only " $1+1=2$ " that the club aims for but also encourages technical thinking and application of practical sciences.

At Math's 'N' Tech Club, we realize this requirement to exposure to analytical reasoning and lateral thinking by organizing a multitude of events that flame the spark of interest in adventurous souls studying engineering at NIT Durgapur.

Established in 2004, the Maths 'N' Tech Club was initially conceived with the idea of providing a stage for instilling in students a passion for mathematics and technology by underlining its merit and applicability through a plethora of brainy challenges. Due to the uniqueness of the ground we cover, and undaunted support of our outstanding faculty, Maths 'N' Tech Club has grown magnificently over the years, as was evident in the successful conduction of ANK'11, the knowledge fest of NIT Durgapur, organized by Maths 'N' Tech Club, and also the fourth edition of Anveshan, the technical magazine of NIT-D, coming out in print, generating appreciative reviews by a number of national institutions in the field, providing the club – a national recognition.

vi. Music Club

The music club started as an incentive to promote the aesthetic sense amongst the college folks. In its initial years it served as a major platform for students who wished to showcase their talent in and around the campus. It has now spread its wings by conducting events such as the Music Quiz, Antakshari, and the likes. Recstasy over the last few years saw the club hosting "Rockophonix", a band competition where student music bands from Durgapur and Kolkata came to battle it out. One of the most momentous achievements has been the "NIT Idol", which was loosely based on the popular TV show by a similar name. It was held at Recstasy as well. The club also had its members compete in fests outside the campus, like "Springfest" at IIT Kharagpur.

vii. Chayanika

Knowledge and culture is the basis of character building and it is this club that allows the brightest technical minds in the country to showcase nurture and grow their talents. CHAYANIKA aims to patronize the sense of art and culture among the students of NIT Durgapur. It upholds the spirit of the students to participate and thereby exploring the vast cultural diversity that this country has to offer. The annual cultural programme 'ELIXIER' offers a plethora of cross cultural events for the students. The students and campus residents witness a number of cultural performances by the students, faculty and guest artists.

'ELIXIER 2011' was "cliché unique" for both the club and the students. It had introduced many competitive events which indeed proved to be a learning curve for everyone associated with the festival. 'Cult Athlon' a quizzing event organized and conducted by Club Chayanika and Quiz club throughout the festival intrigued the participants and the viewers. The Movie critic, classical dance, Photography and Painting competitions turned out to be successes as well. The student Drama competition is one event that the students look out for and is one of the most important aspects of every 'ELIXIER'.

The most extravagant offering was the guest performance by Padmashree Pundit Vishwa Mohan Bhatt- Grammy award winner-captivating the audience with his musical brilliance. Classical was never better for NIT Durgapur. The last day calls for some fun, a progressive rock band-Purple Asparagus-was an icing on the cake.

viii. PRAKRITI

PRAKRITI, the environmental club of NIT Durgapur conducted *ruNIT*, a mini marathon, *Greenart*, a poster making competition, environment related essay competition, awareness programme in nearby village of Hatedoba and plantation and cleaning drive in the campus.

ix. Enteract Club

In its incumbency of just 3 years the club has attained new heights of success and achievements. The club not only takes charge of the entertainment arena but also undertakes the awareness part through modes of street plays, drama and through short films. The club has organized plays on Independence day, Republic day, Teacher's day and a street play for NSS (national service scheme). Besides, the club takes active participation in other fests of the college including a stall at ANK and performances at the cultural fest RESCTACY and ELEXIER. More a family, the club members have put up excellent performances at other colleges including street plays and dramas at IIT-KGP SPRINGFEST and even winning first prize at on spot drama event called curtail call. It also participated in RENDEZVOUS at IIT DELHI. In the coming voyage the club ventures to participate in cultural activities of colleges like, IIT KANPUR (ANTARAGNI), ISM DHANBAD. Moreover the club is in extreme verge of bringing out a magazine on drama and culture plus organizing periodic workshops

on the art of drama, etc. Amidst the plethora of success the club aims to make ENTERACT the best dramatic club of nation by redefining drama and culture and taking it to a new scale.

x. Dance Club

The Dance Club, affectionately called DC, was formed in the college in the year 2003-04. The Dance Club, as the name suggests, consists of active members who have keen interest in dance and have been active in promoting it in the college. It also aims at identifying this talent in the students and providing a platform for them to showcase it. Dance forms like B-BOYING, BREAKING, POPPING, STREET DANCE and CLASSICAL are engulfed in our domain, as we believe in bringing variety to the club. DC participated in college events like ANK, AAROHAN and RECSTASY.

This academic year DC undertook many dance ventures. DC was up against professional dance troops of KOLKATA namely, FULL STOP and C.K.N (CRAFTS OF KOMMOTION) and Freaking Twisterz, and held JAMMING sessions. DC was immensely appreciated for its success in the JAMMING event.

DC members participated in SPRING FEST'11 in the events namely, CENTRIFUGE (group dance), STREET DANCE (solo) and TWO FOR A TANGO (duo).

The aim of this programme is to help the audience share their attitudes and views on a common platform.

xii. Literary Circle

Literary Circle of NIT Durgapur is the melting pot for people who think differently. We do things differently. It serves as a platform for the creatively inclined to express themselves in myriad ways, outside the rigors of an engineering students life. Our motto is to think out of the box and think sky high. Amongst other things, we publish two editions of the official college newsletter – the Déjà vu every semester. We also bring out the Yearbook, a collection of memories which is much appreciated, for the graduating batch each year. Verve, the annual literary-cum-youth fest of NIT Durgapur is also conducted by us, with a plethora of events and workshops to enchant and enthrall all. We also started the first Model United Nations Conference in an engineering institute in Eastern India. NITMUN 2011 was an outstanding success with participation from India and abroad.

4.8 Awards

The details of the awards received by the students and the faculty are given in Annexure 11.9(b).

4.9 Examination Details

Written examinations are held at the end semester (3 hour duration) for the theory papers. Question papers are set internally and moderated by the respective Departmental Academic Committee (DAC). The Institute provides central arrangements for B. Tech. examinations. The postgraduate examinations are being conducted by the respective departments from the academic year 2008-09, with partial support from the Institute, whenever necessary. The students are also continuously assessed through class tests, viva-voce, and class attendance. For the laboratory and sessional classes, the assessments are continuous and supported by viva-voce test /examination at the end of the semester. The methods of the evaluation systems on such assessments are given below.

SGPA- CGPA System

All the subjects in a semester carry credit units depending on the contact hours per week and nature (lecture/ tutorial/ sessional/ laboratory) of the class. The full marks for all the subjects both theoretical and sessional/laboratory are 100. The percentage mark of a theoretical subject consists of 30% by continuous assessment, and 70% through end semester examination. The total marks obtained in a subject are converted to appropriate letter grade by the departmental academic committee (DAC) and despatched for result compilation. In general, the number to grade conversion and the corresponding grade value is as follows:

90 and above: Ex (10);	80-89: A (9);
70-79: B (8);	60-69: C (7);
50-59: D (6);	40-49: P (5).

Below 40 in theory subject or below 50 in sessional/ laboratory: F (0); Absent: X (0).

The product of the grade value and the credit unit of that particular subject is the grade point earned by the student in that subject. The total grade point (TGP) is the summation of all such grade points. Semester grade point average (**SGPA**) = (TGP) / Total credit unit of the semester, rounded off to the second place of decimal. If the candidate clears all the subjects, his SGPA is marked passed in the grade sheet, otherwise marked supplementary. Such candidates are allowed to appear in the supplementary examinations of the subjects in which they have failed. Fresh grade sheet is issued for such candidates with improved SGPA. The grade obtained by the candidate in the subjects for which he/she had appeared for the supplementary examination are decreased by one step at the time of compilation of the supplementary examination results. Unsuccessful candidates in the supplementary examination are required to repeat the semester through readmission. Two such readmissions are permitted in the whole undergraduate studentship. The CGPA is also indicated in the grade sheet, which is the indicator of the student's continuing performance given by the ratio of **the total grade point scored** by the student up to the current semester and **the total credit unit of all the subjects** up to the current semester. Based on the CGPA at the end of the final semester the classes awarded are as follows: **CGPA ≥ 8.00 First class with Distinction; 8.00 > CGPA ≥ 6.50 First class**; the rest of the passed candidates get *Second class*.

Similar system is followed for the M. Tech., MBA, MCA and M.Sc. courses. In some special project-based courses in MBA, the 70/30 ratio as indicated above is changed according to need.

The results of the end semester examinations (both undergraduate and postgraduate) are compiled centrally by the Examination Cell.

4.10 Training and Placement

The Institute provides industrial training and placement to the students through the Department of Training, Placement, and Students' Welfare. The students are given an insight of the corporate industry via various vocational training programmes facilitated by the department. The department believes that such an insight is quite crucial and helps the students in understanding the professional aspects along with the technical details of their probable future jobs. Along with training sessions (ranging between 3 to 5 weeks), the department also organises plant visits to various organizations in and around Durgapur. Apart from providing industrial training, the department also helps the students in preparing for campus recruitment drives by developing their communication and interpersonal skills through certain development programmes, which include conducting mock group interviews. It also takes care of inviting reputed firms from all over to hire students through their campus recruitment drives.

9.4 Laboratories

All departments have well equipped laboratories which cater to the hands on training to the under graduate as well as postgraduate students. The laboratories are also regularly used for carrying out projects and research works. List of the laboratories of various departments are given in Annexure-11.13.

9.5 Hospital, Post Office, Shopping Centre

The Institute has a medical unit-cum-hospital with outdoor and indoor (10 beds) facilities. It is served by two full-time general physicians and supported by part-time specialist physicians; one cardiologist (twice a week), one pediatrician (once a week), one gynecologist and obstetrician (once a week), one ENT (once a week), one ophthalmologist (once a week) and one dentist (once a week). All faculty members, staff members and their families as well as the students are benefited from the medical unit. The medical unit provides 24 hours emergency service with a well equipped ambulance at its disposal. Inside the campus there is a Post Office catering to the needs of residents of the campus.

There is a shopping complex inside the campus which includes a ration shop, a milk booth, one book shop and some shops providing essential commodities.
