When Big Time Gaming pioneered the Megaways™ engine, the online slot market was changed forever. There's no fixed reel setup in Megaways™ games; instead, a varied number of symbols will land on every new spin. Because of that, winning combinations in Megaways™ games will count from any position on the reels, as long as the symbols fall adjacently from left to right — they don't have to stick to paylines! This means that there can be thousands of ways to win on every spin, up to a maximum of 117,649 Megaways™.
