Bally's Quick Hit Platinum has an RTP of 94.06%, which is reasonably high for a casino slot game. But what does this number mean, anyway? The Return-to-Player percentage is simply a calculated estimate of how much of the money that goes into the machine goes back out to players. This calculation is based on the gameplay of all players, so it doesn't mean that you can only get 94.06% of your own money back. You could be the one to win big!
