All new players will be welcomed with 2,000,000 Gold Coins and \$2 in Sweeps Coins. No deposit is needed to receive both amounts, and you can instantly start playing any game with either. We'll explain more on the difference between the two casino currencies in a short while. U.S. and Canadian players can get more free Sweeps Coins by writing a letter to the registered address of Chumba Casino.

The main choice to fund your account is via purchasing Gold Coins to officially take part in the sweepstakes. Sweeps Coins are then given as a free bonus and credited alongside the Gold Coins. While at the start in 2017 they were using PayPal as their main channel for payments, that has stopped in 2018, leaving you only with credit cards and a few other options.

The country of Thailand is very anti-online-gambling and has shut down more than two thousand eight hundred "illegal" gambling websites in 2022.

Anyone with an Android device can get to play games for free on the Chumba Lite - Fun & Free Slots Casino app that you'll find in the Google Play Store. This app offers the chance of big jackpot wins along with a one million gold coin bonus just for downloading and getting started. There are free rewards for reaching levels, playing regularly, finishing on top of a leaderboard, or completing other achievements.

Fees apply to all redemptions; however, there are no published details as to the exact amounts or percentages applied. Processing times are between 5 and 10 business days according to the terms shown although Skrill is supposedly completed faster.

We'll also see how we and other real player reviewers believe the platform performs, taking into account a broad range of performance indicators that will make up the key decision-making factors in whether to sign up for an account and play.

If you have been searching for player opinions about Chumba Casino, you have probably come across a good mixture of positive and negative reports. While the operation looks legit on its face, there are doubts on how they will continue to offer their services to U.S. players given the shaky legal rationalizations involved.

Even if we credit Chumba with dealing honest cards and following a fair distribution, the payable listed contains several downgrades from normal Jacks or Better VP. For instance, a full house is worth only 7 times the bet, and a flush only pays 5x: quite a reduction from the 9x and 6x respectively for these hands awarded by full-pay Jacks or Better machines.

All payments are processed in U.S. dollars. Sweeps Coins redemptions are converted back to US\$.

Having played at online casinos for over two decades, we have never come across any of the proprietary slots from Chumba Casino. They do look well-designed though, showing that some effort has been made in creating them.

With a fairly long history stretching back at least to 2013, it's obvious that the Chumba site will have evolved into what we see today via some cosmetic design changes and improvements to games. These changes will generally have improved the experience of players, and may in some instances be a deciding factor in whether to register an account or not.

Chumba Casino BlackjackVideo PokerPoker fans can play Jacks or Better with either Gold Coins or Sweeps Coins. Simply switch between hands whenever you like. Unfortunately, it is also the only video poker game available at Chumba Casino.

It's worth noting that none of these are going to offer the excitement and money-winning potential of playing in a real money online casino.

Here we'll break down the main differences between Chumba and other well-known casino operators. We'll avoid comparison with those operating to a similar social gaming model that have been mentioned above, since Chumba has the longest operating history and is already well recognized as the leader in the sweepstakes model field.

It's hard now to find any online casino that doesn't run on software and with a website where both offer speedy and trouble-free gaming. In the case of the three casinos we're comparing, all perform well from this aspect.

Chumba Casino sells a virtual currency known as Gold Coins. You can play free games by purchasing a Gold Coin package, but can't trade them, transfer them, or redeem them for money. Essentially you can either buy them, win them, or obtain more in bonus offers or promotions.

Other great features (aside from the gaming, of course) include the game guide and the popular Facebook sharing features.

It's easy to find a good number of player complaints around withdrawal speeds at Chumba, something you're unlikely to experience with any major issues at Bovada and Café Casino. With both also offering crypto withdrawal options, they boast a significant increase in payout speed and mostly pay out wins within two days.

SportsBettingAG is our favorite online sportsbook. High betting limits of up to \$25,000 USD per game, a plethora of betting options, and virtually all types of sports (and esports) are on offer at SBAG.

You'll notice here that these comments are mainly negative, although Chumba does attract positive comments too. It's always worth remembering that you're likely to see far more negative user reviews on any service or product than positive ones simply because it's human nature to want to make a big point of telling everyone when something doesn't work in the way you hoped for.

In the case of Chumba Casino, some poor reviews are actually caused by incorrect expectations of users or misoperation on their part. It's wise to take note of comments from both positive and negative reviewers to enable any player to make a truly accurate judgment, but it's also likely that the most accurate opinion on anything being reviewed will come from personal experience.

Finally, although there are some positive comments from real player reviewers, it's not hard to find a significant number of reviews from players that report poor experiences. In some instances, that experience has been so negative that it has given rise to talk of a class action lawsuit.

So as a final conclusion, what's the verdict now we've fully reviewed the platform? Can we honestly recommend Chumba Casino to our readers?

After opening an account, you can purchase set amounts of Gold Coins starting as low as \$1. These can be used to play the games in fun mode and even compete against fellow punters to win Gold Coin prizes as in a more traditional sweepstakes contest.

Chumba presents itself as an online social casino where players can play games for free without wagering money, or to win real money prizes. You can play Chumba Casino games either with earned or free sweeps coins. You can also buy gold coins or get some as a bonus to increase your jackpot winning chances.

WARNING: Players living outside the United States or Canada cannot change their Sweep Coins for real cash that can then be withdrawn. The casino is thus a normal social gaming site for those players, and they can simply enjoy the games for fun. Just remember that should you fall into this category and decide to deposit real money, you will never be able to withdraw any potential winnings.

But is the sweepstakes model one to be trusted? And if you win money are you going to be able to get it out of your account and into your bank?

We had no means to test the speed of cashouts and reports in forums are rather sketchy. While some posters confirmed that they have received timely payments, others have not.

The founders of VWG and probably a whole host of lawyers found not-insignificant loopholes in U.S. anti-gambling laws for sweepstakes contests, which explains why the casino promotes itself as a social gaming destination. Sweepstakes are legal in 50 U.S. states and are thus the core part of how Chumba Casino operates. It is in essence an online casino hiding in plain sight but counts legally (or so the company hopes) as a sweepstakes operation.

All in all, there's no hard evidence of any scam. There are some complaints of not getting paid (though many of these seem to be down to ID issues) and also of low or infrequent wins (though we have to recognize that this is casino gaming; there is going to be volatility at times).

There are none of the typical bonus offers at Chumba Casino that you would normally see at an internet casino since it is not your usual casino but an online platform that offers you the chance to play games for entertainment. The sweepstakes entry part is done by giving you Sweeps Coins which you can use for playing the slots and games in the casino.

Chumba has a standard welcome bonus offer that applies to all new account registrations. There are no known current bonus codes that can be used to increase this amount, although in the past there have been successful promos like a \$1 for \$60 offer. You may find special offers for extra coins at certain times of the year, such as Christmas or Easter, or in special promotions on social media sites like Facebook or Twitter.

Starting to play in any other online casino normally works in a few simple steps – create and verify the account, deposit funds, play, and withdraw if you have been lucky. It is totally different at Chumba Casino.

This method of operating is reason enough for first-time players to take a closer look at their Sweepstakes model. Specifically to find out how they use sweeps coin games and ascertain whether this is a legit online casino or a scheme to get unsuspecting players to part with their money without any chance of winning any real prizes.

Throughout this in-depth review, we'll explore how the sweeps coins and gold coins currency models work, whether you really can win real cash prizes, the types of gambling games you can play from video slots or video poker through to table games like blackjack and roulette, if you can expect good quality social gaming, and generally answer any type of FAQ you may have about the platform.

Chumba Casino promotes itself as a social gaming hangout that uses, together with its sister site Global Poker, a novel way of letting people from all over the world, including the USA and Canada, play online casino games like slots, Blackjack, and Poker.

Promotions are often limited to offers for Sweeps Coins. Via their Facebook page, Chumba regularly holds Sweeps Coins no-cost giveaway contests where a small number of winners are picked to receive Sweeps generally ranging from 10 to 50. Additionally, there are sometimes special pop-up deals extended to particular individuals, like the chance to get 10 in Sweeps for just \$5.
