The Greek gambling market is strongly influenced by the country's intention to keep the state-run OPAP a monopoly, which, however, violates EU laws. Greece's gambling laws are being amended and it's expected that other online casinos will be able to get official Greek licenses again. Greek players can find relevant online casinos on gr.casino.guru.

A casino can be great for players from one part of the world and terrible for other players. That's why we've created a custom casino ranking relevant for players from Germany, which consists of our evaluation of each casino on a global level, as well as custom factors important for players in Germany.

Here are some examples of rules commonly associated with bonus play:

Best online casino fast payout

Although casino bonuses are tempting as they give you more money to play with, they are not always the best choice. There are always rules you have to follow when playing with bonus money, which can be quite restrictive and often make it very difficult to actually withdraw money after taking a bonus. We believe that players are sometimes better off playing without a bonus than with it.

The payment methods (bank accounts, cards, internet wallets) you use to deposit money into your casino account should be yours and held in your own name. Using someone else's card, bank account, or wallet can lead to a permanent account closure and can be used as a reason for not paying out winnings.

To help you discover the best casino sites for you, feel free to use our advanced filters. It's important you understand that gambling is not a way to make money. You can get lucky and win in the short term, but don't expect to systematically win money by playing casino games. If you get lucky and hit a nice win, withdraw your money, because you will lose it sooner or later if you keep playing. Also, remember that gambling addiction is a serious issue, so play safely and seek help if your gambling starts getting out of hand.

Casinos always have an advantage, but you can play in a smart way to minimize it and give the house as little edge as possible. Some games are better than others from the mathematical point of view, but you should always remember that you will be playing at a disadvantage regardless of what you do. You can explore this further by reading our article about games of chance.

There are reputable online casinos, but there are also casinos with bad intentions. If you choose an honest and reputable casino to play at, you can be pretty much sure that you will be treated well, and your winnings will be paid out to you unless you really do something against the rules.

We carefully read the Terms and Conditions of each casino to determine if they are fair towards players and don't contain deceitful or potentially harmful clauses.

Each online casino site is reviewed and rated in terms of size, trustworthiness, customer support, win and withdrawal limits, licenses, fairness of Terms and Conditions, etc. The resulting rating should give you a good idea of how likely you are to have a good, safe, and fair playing experience.

The registration and first deposit can be very tiring at some casinos and for players from some countries. This also influences our rating for Germany.

If not approached carefully, gambling can turn from an entertaining activity to a serious gambling addiction. That is why you should always approach it with responsible gambling in mind, taking precautionary steps to avoid falling victim to problem gambling. You can read more about this in our article about safe gambling.

Online casino 200 deposit bonus

This is quite a common myth in the gambling industry. The payout ratio (RTP) is not influenced by the casino you play at, but by the games you play. Generally speaking, if you play the same game at two different casinos, your chances of winning are the same, at least if we ignore factors like bonuses, promotional offers, etc.

All casino games have a certain house edge, which means the casino always has an advantage. You can, however, get lucky and hit a win despite the unfavorable odds.

All casinos in our database have been reviewed and are regularly re-checked by an independent team which doesn't handle anything else but reviews and complaints.
