The IP address or range 95.216.0.0/16 has been blocked (disabled) by ST47 for the following reason(s): The IP address that you are currently using has been blocked from editing Wikipedia. You will not be able to edit Wikipedia using a web host or colocation provider because it hides your IP address, much like a proxy or VPN. We recommend that you attempt to use another connection, try using a Wi-Fi connection, and vice versa. If you have a Wikipedia account, please log in. If you do not have any other way to edit Wikipedia, you will need to request an IP block exemption. If you are confident that you are not using a web host, you may appeal this block by adding the following text on your talk page: {{unblock|reason=Caught by a colocation web host block but this host or IP is not a web host. My IP address is ____ information here. ~~~~}}. You must fill in the blank with your IP address for this block to be investigated. Your IP address for this block to be investigated. provider (such as if you are using VPN software or a business network); please use this method of appeal only if you think your IP address is in fact not a web host or colocation provider. Administrators: The IP block exemption user right should only be applied to allow users to edit using web host in exceptional circumstances, and requests should usually be directed to the functionaries team via email. If you intend to give the IPBE user right, a CheckUser needs to take a look at the account. This can be requested most easily at SPI Quick Checkuser Requests. Unblocking an IP or IP range with this template is highly discouraged without at least contacting the blocking administrator. This block will expire on 16:49, 1 August 2024. Even when blocked, you will usually still be able to edit your user talk page and email administrators and other editors. For many people, venomous snakes are one of the top ten ultimate fears, so they'd probably want to avoid paying a visit to Snake Island, otherwise known as Ilha da Queimada Grande. This small, breathtakingly beautiful island is located 90 miles off the Sao Paulo coast and it's home to one of the world's deadliest snakes, the golden lancehead pit viper. This golden brown coloured light ...
