Activity Timeline

Sl No.	Important Tasks Vs. Months	01-03	04-06	07-09	10-12	13-15	16-18	19-21	22-24	25-27	28-30	31-33	34-36	37-39	40-42	43-45	46-48
1	Setting up of basic Project Infrastructure	██	██														
2	Specification Finalization and Purchase (phase 1)		██	██													
3	Specification Finalization and Purchase (phase 2)					██	██										
4	Specification Finalization and Purchase (phase 3)									██	██						
5	Deployment of Basic computing and networking facilities			██	██												
6	Deployment of Embedded and Robotic Development System				██	██											
7	Literature Survey, Attending Training Programme, Organizing Short Term Courses by Industry and Academia	██	██	██	██	██	██	██	██	██	██	██	██	To be continued			
8	Admitting Student for M.Tech and PHD			██	██	██	██	██	██	██	██	██	██	To be continued			
9	Research Activities involving the Projects	██	██	██	██	██	██	██	██	██	██	██	██	To be continued			
10	Prototype Development									██	██	██	██	To be continued			
11	Industry Institute Collaboration, Institute-Institute Collaboration					██	██	██	██	██	██	██	██	To be continued			
12	Technology Incubation for Start up									██	██	██	██	To be continued			
13	Patenting and Technology Transfer												██	To be continued			
14	Training, Continuing education and Consultancy							██	██	██	██	██	██	To be continued
